Create subaccount

Create a subaccount. Set subaccount permissions by passing the package ID in the payload.

POST	https://api.coupontools.com/v4/subaccount/create

Dashboard   Free Trial

Overview   Coupon   Directory   Loyalty   Account   Others

Optional   **password**   Password

If not provided, subaccount will get password configuration email

---

Optional   **package**   Package ID (pac_XXX)

Can be found on the package page in your dashboard

Optional   **status**   trial | customer

Define the status of the subaccount

Optional   **first_name**   String

Optional   **last_name**   String

Optional   **country**   String

Alpha-2 country code (f.e. US, FR, MX, ...)

Optional   **company_name**   String

Optional   **expiry_date**   Date (format: yyyy-MM-dd)

Example

Node   ⌄   ▢

```
1  const https = require("https");
2  const client_id = "XXX"; // Your API client ID (required)
3  const client_secret = "YYY"; // Your API client secret (requ
4  const data = JSON.stringify({
